

Fort Madison/Keokuk/Mt. Pleasant Head Start & Early Head Start

Winter Weather Practices:

- **Dual, Duration & Early Head Start:**

- Classes will always be in session. We will only cancel in an emergency or when weather conditions are so extreme that the city is closed (i.e. City Hall is closed). Parents may transport their child to class, at their discretion, if they can safely do so, especially if parents need to attend classes or work etc...

If you choose to keep your child home, parents are responsible for calling the Early/Head Start program to let us know if your child is going to be absent.

- **Children Shared with Public School District:** If your child also attends the public school preschool, parents must contact the public school district separately about an absence.

DISCLAIMER: As with any regular practice, not all situations can be predicted. Further program guidance may be needed for extreme weather conditions. Listen to your local radio stations, check our FACEBOOK page for your specific center, and watch for a text/phone call from Head Start.
