Success

and the

Weatherization

"Miss Lisa is 75 years old, lives alone, owns her home, and makes do on social security and a small pension. She was chosen to have her home weatherized as her utility bills were quite high, around \$300 - 400 a month. Our weatherization team worked on her home putting in new insulation and a new furnace. Her bills went down drastically, to between \$59-79. "I couldn't be any happier and I thank you all for that!"

On average, our weatherization program saves homeowners and renters an average of <u>\$328</u> a year on utility costs. Some homes, like "Miss Lisa's see more drastic savings.

*Name changed for confidentiality

Around 60 homes are weatherized each year by Community Action in southeast Iowa. This raises home values, lowers utility bills for customers, makes homes safer, and reduces the energy burden.

Learn more about the Weatherization program on our website.

Housing

We all need a place to live. A roof over our head and somewhere safe to sleep at night. Housing is a basic need of all people.

The uncertainty that one's housing may disappear in a day or a week or a month can cause <u>unvival/poverty utress</u>. When you face housing insecurity, wondering how or where you'll sleep next depletes lats of time and energy. leaving few resources for much else.

In our communities many struggle to find affordable housing. Their dollars are stretched beyond what they're able to consistently afford. Living paycheck to paycheck, many are tossed in a tizzy if something unexpected comes up. We know, something unexpected always comes up. Life is full of changes and rarely goes how we plan.

Tips

- Save as much as you can to have at least a small emergency fund for the unexpected.
- Cultivate friendships. Be a friend and hopefully you'll have a friend when you need one too.
- Are you just starting out? Sometimes a roommate situation can be helpful.
 Make sure you establish some healthy guidelines so you're both safe and secure in your living environment.
- Here's some advice from Iowa Legal Aid about roommate situations.
 Look into subsidized rentals: low-rent housing vouchers, Section 8, or
- apartment complexes based on your income.
- If you can save a little, think about buying a home. Talk to a bank or credit union about your options. Buying a home can lower monthly costs and help build wealth. There can be repair costs, but it could be a place of your own to invest in.

HUD offers some helpful things to consider when buying a home.
 If you're homeless try out some of these resources listed on this one-page fluer.

- Or these for those in Des Moines County
- Or check out our <u>Homeless Assistance Webpage</u>

If you are struggling with housing, reach out. Our agency and others have some resources that might help or start you down a sustainable path:
