

## Head Start Preschool & Early Head Start Winter Weather Practices:

We try to only cancel in an emergency or **when weather conditions are so extreme that the city is closed** (ex. City Hall is closed), otherwise, classes will always be in session. Parents may transport their child to class, at their discretion, if they can safely do so, especially if parents need to attend work or classes, etc.

**If you choose to keep your child home, parents are responsible for calling the Head Start program to let us know if your child is going to be absent.**

- **Children shared with Public School District:** If your child also attends the public school preschool, parents must contact the public school district separately about an absence.

**DISCLAIMER:** As with any regular practice, not all situations can be predicted. Further program guidance may be needed for extreme weather conditions. Watch for a text/email from Head Start on the ChildPlus Communication App or check your classroom DOJO page.
